

CURRICULUM VITAE & PUBLICATIONS LIST

NAME	POSITION TITLE
Bartosz Andrzej Grzybowski	
Born: 15.02.1972, Gdynia, Poland	Distinguished Professor of Chemistry, UNIST Institute for Basic Science, Group Leader Professor at the Polish Academy of Sciences

A. Education & Training:

B.Sc. in Chemistry Yale University, New Haven, CT, USA, 6/1995 (Advisor: Prof. Patrick Vacarro)

M.Sc. in Chemistry Yale University, New Haven, CT, USA, 6/1995 (Advisor: Prof. Patrick Vacarro)

Ph.D. in Chemistry Harvard University, MA, USA, 11/2000 (Advisor: Prof. George M. Whitesides)

B. Academic Experience

10/2000 – 7/2001	Postdoctoral Fellow, Harvard University
7/2001 – 8/2003	Associate of the Department of Chemistry and Chemical Biology, Harvard University
9/2003 – 8/2007	Assistant Professor, Northwestern University, Department of Chemical and Biological Engineering and Department of Chemistry
9/2007 – 8/2009	Associate Professor, Northwestern University, Department of Chemical and Biological Engineering and Department of Chemistry
9/2009 – 8/2014	Director of the DoE Energy Frontier Research Center (Non-Equilibrium Energy Research Center, Northwestern University)
9/2009 – 12/2014	Full Professor, Kenneth Burgess Chair in Physical Chemistry and Chemical Systems' Engineering, Department of Chemical and Biological Engineering and Department of Chemistry
9/2014 – present	Professor, Polish Academy of Sciences
12/2014 – present	Distinguished Professor of Chemistry, UNIST
7/2015 – present	IBS Group Leader, IBS Center for Soft and Living Matter @ UNIST

C. Honors & Awards

1995	Arthur Fleischer Award for Outstanding Performance in Chemistry, Yale University
1995	Honoris in Chimia, Yale University
1995	Summa cum Laude, Yale University
2003	Camille and Henry Dreyfus New Faculty Award
2006	National Science Foundation CAREER Award
2006	3M Non-Tenured Faculty Award
2006	Pew Scholar in the Biomedical Sciences
2006	American Chemical Society Division of Colloid and Surface Chemistry Unilever Award
2007	Sloan Fellowship
2007	Camille Dreyfus Teacher-Scholar Award
2008	G. Kanig Award for Innovation (Verband für Polymerforschung, Germany)
2010	Soft Matter Lectureship (Royal Society of Chemistry, UK)
2010	Saville Lectureship (Princeton University)
2010	Crano Distinguished Lectureship (American Chemical Society, Akron Section)
2010	American Institute of Chemical Engineers NSEF Young Investigator Award

2011	Centennial Year of Chemistry Distinguished Lecture (Wroclaw University, Poland)
2012	Excellence in Nanoscience Lectureship (EPFL, Switzerland)
2012	MESA Institute Annual Lecture (University of Twente, the Netherlands)
2012	ISIS Distinguished Lectureship (University of Strasbourg, France)
2013	Nanoscience Prize (International Society for Nanoscale Science, Computation and Engineering; http://en.wikipedia.org/wiki/International_Society_for_Nanoscale_Science,_Computation,_and_Engineering)
2014	The Givaudan Lecture and the Bristol Synthesis Meeting
2015	Fellow of the Royal Society of Chemistry, UK
2016	The Feynman Prize in Nanotechnology; https://en.wikipedia.org/wiki/Feynman_Prize_in_Nanotechnology
2018	WuXi Distinguished Lecturer (Shanghai, China)
2019	Sendzimir Honorary Medal (Society of Innovators, Poland)
2019	25 th Solvay Conference on Chemistry (Brussels, Belgium)
2019	NIH NCATS “Aspire” Award (National Institutes of Health, NIH, Washington, USA)
2020	Elected Member of the Societas Scientiarum Varsaviensis (Towarzystwo Naukowe Warszawskie)
2021	UNIST Grand Academic Prize
2023	Plenary Lecture at the 49 th IUPAC World Chemistry Congress, The Hague, The Netherlands

PART 1: SCIENTIFIC PORTFOLIO AND METRICS

D. Current Scientific Interests: computerized synthesis; artificial intelligence, AI, applied to organic chemistry, discovery of new reactions and of new drugs; AI for chemical waste management, complex chemical networks and catalytic systems, self-assembly in non-equilibrium regimes, nanomaterials for catalysis, energy storage and nanomedicine.

E. Highlights of Scientific Contributions. Grzybowski and his team pioneered research on non-equilibrium self-assembly processes in chemical systems (*Nature* 2000, *Science* 2002a, *Science* 2002b, *Nature* 2018, *Nature* 2020a, *Nature* 2020b). They were the first ones to describe nanoscale self-assembly based on electrostatic interactions (*Science* 2006), and first ones to demonstrate all-nanoparticle electronics (*Nature Nanotechnology* 2011, 2016, *Nature Materials* 2012). Grzybowski’s team discovered several fundamental phenomena at small scales (e.g., plastic-metals, *Science* 2007; inverse photoconductors, *Nature* 2009) and is recognized as being the pioneers of reaction-diffusion chemical systems operating in the nano- and microscopic regimes (reviewed in *Angew. Chem.* 2010 and also in Grzybowski’s textbook on the subject). In 2011, the group solved perhaps the oldest scientific question – originally posed by Thales of Miletus – as to how and why materials charge upon contact with one another (*Science* 2011, *Science* 2013). In 2013, they have demonstrated magnetic traps that unlike their optical counterparts can manipulate nanoscopic objects, *both* magnetic and non-magnetic (*Nature* 2013).

Grzybowski’s most impactful discoveries are in the area of computer-planned organic synthesis and AI for reaction and drug discovery. The Grzybowski group discovered and quantified the general laws governing the Network of Organic Synthesis (*Nature Chemistry* 2009), and created Chematica, the “chemical brain” for the planning of organic syntheses (*Angew. Chem.* 2012a, 2012b, 2012c, 2016, *Chem* 2018,2019, 2020). In 2020, they demonstrated how computers can plan syntheses to complex natural products (*Nature* 2020) and how they can discover new prebiotic syntheses (*Science* 2020).

Grzybowski has a strong track record of research commercialization. The companies he started has achieved a valuation of close to \$1 billion. He also advises pharma industry (e.g., Merck) and has managed a portfolio of research grants (from US, Korean and Polish governments totaling >\$40 million).

Grzybowski is an author of over 290 articles cited >22,100 times (Web of Science). Over the years, he received several awards including NSF CAREER Award, Pew Scholar in the Biomedical Sciences, American Institute of Chemical Engineers NSEF Young Investigator Award, ACS Unilever Award, Sloan Fellowship, Dreyfus Teacher-Scholar Award, Nanoscience Prize, and the 2016 Feynman Prize.

F. Citations (as of May 29, 2022)

ISI Web of Science: 22,870; H-index = 70 (search AUTHOR = grzybowski b*, YEAR 1995-2022)

Citations from Google Scholar: 31,480, H-index = 80.

G. Books Authored. B.A. Grzybowski “*Chemistry in Motion: Reaction-Diffusion Systems for Micro- and Nanotechnology*” Wiley, 2009, ISBN: 978-0-470-03043-1). **Reviewed in:** *Angew. Chem. Int. Ed.* **2010**, 49, No. 47, p. 8790

H. Publications (* denotes corresponding author):

2022

In revision

PART 2. PROFESSIONAL SERVICE

J. Editorial:

Soft Matter, RSC, member of the Scientific Advisory Board (2008 - present)
Guest Editor, *Soft Matter*, RSC, Special Issue on Self-Assembly (March, 2009)
Guest Editor, *Chem. Commun*, RSC, Special Issue on Chemical Systems (2014)
Advanced Material Interfaces, Wiley, Executive Advisory Board (June 2013-present)
ACS Advanced Materials and Interfaces, ACS, member of the Scientific Advisory Board (Nov. 2013 - 2014)
ChemSystemsChem, Wiley, Scientific Advisory Board (since Sept. 2018)
Matter, Cell Press, Scientific Advisory Board (2018-2021)
Tetrahedron Chem, Cell Press, Scientific Advisory Board (since Jan 2022)

K. Invited Lectures:

1. NECSI International Conference on Complex Systems (Nashua, NH, 2000)
2. Politechnika Gdanska (Poland, 2001)
3. Freiburg University (Germany, 2002)
4. EMBL Heidelberg (Germany, 2002)
5. European Workshop on Morphology of Surfaces and Interfaces in Soft Matter (Jadwisin, Poland 2003)
6. Moscow State University (Russia, 2003)
7. AIChE Annual Meeting, San Francisco (2003)
8. University of Munster (Germany, 2004)
9. Brown University (2004)
10. Volkswagen Conference on Complexity (Germany, 2005)
11. EPA Workshop on Self-Assembly (Cincinnati, 2005)
12. International Conference on the Technologies of the 21st Century, Moscow (2005)
13. Stanford University (2005)
14. NICO Launch Seminar (Northwestern, 2005)
15. Halliburton, Inc. (2005)
16. MATNON'05 International Conference on Nonlinear Systems (Kyoto, Japan, 2005)
17. Workshop on Stochastic Effects in Liesegang Patterns Formation (Sils-Maria, Switzerland, 2006)
18. ACS Colloid and Surface Science Symposium (Boulder, 2006)
19. Gordon Research Conference on Non-Linear Chemistry (Oxford, England, 2006)
20. Lehigh University (2006)
21. Illinois Institute of Technology, Chemistry Department (2006)
22. ACS Annual Meeting, San Francisco (2006)
23. NSF US-Poland Workshop on Nanotechnology (Poznan, Poland, 2006)
24. Dow Chemical (2006)
25. 3M (2006)
26. NIH/NCI Nanotechnology in Cancer Research, Investigators Meeting (San Diego, 2006)
27. Yale University (Chemical Engineering, 2007)

153. NanoTR (“Nanoions: Charged nanoparticles for materials and nanomedicine”; plenary lecture, Antalya, Turkey, October 18, 2017)
154. Radboud University (“From computer-assisted retrosynthesis to chemical systems”; Dept. of Chemistry, Nijmegen, the Netherlands, September 19, 2017)
155. NIH NCATS 2017 Automated Chemical Synthesis Workshop (“Chematica: An in silico organic chemist”; October 20, 2017)
156. Rice University (IBB Innovator Lectures, January 19 & 22, 2018)
157. Osaka University (21st SANKEN International Symposium, January 17, 2018)
158. Kyoto University (Dept. of Chemistry, Kyoto, January, 15 2018)
159. DARPA Make-It Meeting (Washington, DC, January 23, 2018)
160. NIH NCATS (Rockville, MD, January 24, 2017)
161. Institute of Organic Chemistry, PAS (Warsaw, January 30, 2018)
162. Max Planck Institute for Colloids and Interfaces (Berlin/Golm, February 8, 2018)
163. WuXi Chemicals (Shanghai, May 2018)
164. Fudan University (Shanghai, May 2018)
165. Strong Korea Forum (Seoul, June 2018)
166. Boehringer-Ingelheim (Biberach, Germany, June 2018)
167. Bayer Pharma (Wuppertal, Germany, June 2018)
168. Bayer Pharma (Berlin, Germany, June 2018)
169. ACS National Meeting (Boston, August 2018)
170. DARPA Make-It Meeting (Boston, August, 2018)
171. Samsung Future Tech Forum (Seoul, September 2018)
172. CNR Foresight Meeting (Rome, Italy, December 2018)
173. Osaka University, Sanken Symposium (January 2019)
174. RIKEN, Wako (Japan, January 2019)
175. East Chem Conference (May 2019, Norwich, England)

176. 25th Solvay Conference on Chemistry (October 2019, Brussels, Belgium)
177. Japan's Society for Synthetic Chemistry (October 2019, Tokyo, Japan)
178. Kyoto University (October 2019, Kyoto, Japan)
179. 2nd Alpine Winter Conference on Medicinal Chemistry (Plenary Lecture, January 2020, St. Anton, Austria)
180. NSF Molecule Maker Lab Institute (University of Illinois, Urbana Champaign, Oct. 2020)
181. John Hopkins University (Origins of Life Initiative, Oct. 2020)
182. Chem/Elsevier-Reaxys Symposium (Plenary Lecture, Oct. 2020).
183. IBM Zurich (Zurich, Switzerland, Oct. 2020)
184. AbbVie Discovery 2021 Platform Chemistry Technology Seminar (2021/2022, to be scheduled)
185. Lawrence Livermore National Laboratory (Livermore, CA, USA, February 2021).
186. Princeton University (USA, February 2021)
187. Novartis (Basel, Switzerland, March 2021)
188. UNIST (Ulsan, Korea, April 2021)
189. Gravitation Programme (<https://fmsresearch.nl/>, the Netherlands, May 2021)
189. Organization for the Prohibition of Chemical Weapons (The Hague, Netherlands June 2021)
190. VISTA Symposium (Plenary Lecture, Max Planck Institutes, Germany, July 2021)
191. Politechnika Wroclawsak (Wroclaw, October 2021)
192. Taiwan Institute of Chemical Engineering Annual Meeting (Plenary Lecture, Taiwan, January 2022)
193. 4th International Mini-Symposium on Molecular Machine Learning (Plenary Lecture, Muenster, Germany, January 2022)
194. University of Illinois at Urbana-Champaign, Dept. of Chemistry (February 2022)
195. Chemical AI Hackaton, Opening Lecture (China, May 2022)
196. BASF (Germany, May 2022)
197. Sanofi-Aventis (Germany, May 2022)
198. Enamine (the Ukraine, May 2022)
199. ETH Zurich (June 16, 2022, pending)
200. Krajowa Konferencja Nanotechnologii/National Nanotechnology Conference (Krakow, Poland, July 2022)
